

# EASY-TO-USE DISINFECTANT PRODUCTS EFFECTIVE AGAINST THE SPREAD OF COVID-19

Safety-Kleen has partnered with Aqua ChemPacs™ to provide our customers with a Disinfectant Care Kit that meets the EPA's criteria for use against coronavirus.

While this does not replace the complete disinfection or decontamination of buildings or office areas that should be performed by our professionals, **these custom cleaning kits provide a safe and easy-to-use option for customers who are interested in keeping their personal work areas clean on a daily basis.**

## DISINFECTANT CARE KIT

- 4 x 32 oz Spray Bottles & Triggers
- 40 Pacs of Disinfectant Cleaner (each Pac makes 32oz)

## DISINFECTANT CLEANER PACS

- Liquid cleaning chemical pacs are completely water-soluble
- Follow label dilution instructions by dropping packet directly into water

### WHAT TO CLEAN

#### Offices

All horizontal and vertical surfaces, counters, tables, sinks, vents, light lenses and dispensers

#### Restrooms

Disinfect all toilets, urinals, fixtures, hand dryers, doors, handles, light switches, partitions, vents, mirrors, and dispensers

#### Entryways

All windows, door rails, handicap electric carts and child racecar carts

#### Elevators/Escalators (if applicable)

All dust vents, light lenses, ledges and hand rails

#### Appliance Mezzanine (if applicable)

All perimeter glass and railings

### HOW TO CLEAN

#### Disinfection

To disinfect inanimate, hard, non-porous surfaces use the appropriate-sized premeasured packet.

Packet Size	Net Weight	Number of Packets	Dilution	PPM
Small	0.1023 ounce	1	Quart	1552

1. Insert entire Pac into bottle (Do not cut or tear Pac open)
2. Fill bottle with cool or warm water
3. Wait approximately 1 minute, then gently shake
4. Apply solution with hand-pump trigger sprayer so as to wet all surfaces thoroughly
5. Allow to remain wet for 10 minutes, then remove excess liquid

#### General Cleaning & Deodorization

Apply product to soiled area with hand pump trigger sprayer. Product must be diluted as indicated in the DISINFECTION section. Thoroughly wet soiled surface and scrub as necessary. Rinse surface with potable water and wipe dry.

### These products do NOT replace a full facility/business decontamination.

If there is any known, possible or plausible presence of the virus, we do not recommend disinfection; we recommend full decontamination.

Our Clean Harbors response personnel can execute the clean-up and disposal of your waste in strict accordance with the most current CDC, EPA and DOT regulations. Our HAZWOPER-trained pros use EPA-approved SARS-COV-2 solutions that eradicate the contamination. Remaining waste is safely managed and legally transported to one of our incinerators, where it is completely destroyed.
